The Southern Region plans on utilizing BlackBerry Smartphones for storm damage mapping and other related field events that require map viewing and GPS map point logging. Freeance Mobile will allow the National Weather Service to combine two existing platforms, ESRI ArcGIS and BlackBerry in-house with easy-to-use plug-and-play configuration software.

Now you have the chance to win Freeance Mobile software and BlackBerry Smartphones for your organization. Enter your concept or plan on how your organization can mobilize GIS on BlackBerry and win \$15,000 worth of Freeance Mobile software and BlackBerry Smartphones. It's the first annual GIS on BlackBerry Awards and you could be announced as the winner at the 2009 ESRI User Conference in San Diego. You don't need to attend the User Conference to win and you don't need to be current users of Freeance Mobile or BlackBerry. All you need is your initiative and drive for mobile efficiency. Use the online entry format at [www.freeance.com/wirelessaward](http://www.freeance.com/wirelessaward) and enter your dream for GIS mobility on BlackBerry today.

Freeance Mobile 2.0 for ArcGIS Server 9.3 will be on display in the BlackBerry booth at the 2008 ESRI International User Conference in San Diego, booth #2223.

### About Freeance Mobile Software

Freeance Mobile is innovative, easy-to-use location software for efficiently making mobile applications. You can now make your ArcGIS available to anyone, anywhere, anytime. It is hassle-free software for users and IT administrators alike. Designed for the ESRI and BlackBerry environments, Freeance Mobile starting at \$999 for unlimited users and combining off-the-shelf simplicity with the ability to make your own custom applications. Visit <http://www.Freeance.com/mobile> for more information.

### About TDC Group

TDC Group, Inc. develops the Freeance Mobile and Freeance Web software solutions. The Company serves government, utilities and corporate clients with productive, cost-effective and easy-to-use software that reduces the time and resources needed to deploy enterprise GIS and mobile applications.
